

SAFETY SERVICES

STAY AHEAD OF HAZARDS WITH TEXAS MUTUAL SAFETY SERVICES

We're here to help you uncover your company's top safety hazards and suggest best practices to address them. With more than 35 safety consultants available in person or on the phone, Texas Mutual employs the state's largest workplace safety team ready to help you. And if technology is more your style, we have numerous safety and training materials available online too.

Safety consultants

Our consultants visit policyholders across the state to inspect facilities for potential safety hazards, review safety programs and address any concerns or questions. Contact us to schedule an in-person site visit.

Safety services support center

The support center is an extension of our reach to every corner of the Lone Star State. Policyholders can simply call 844-WORKSAFE (967-5723) Monday through Friday between 8 a.m. and 5 p.m. CST. Our knowledgeable, responsive health and safety professionals stand ready to help you.

Safety and training resources

- Access free streaming videos and other downloadable resources at texasmutual.com
